

# Radiological Protection Culture: CRPPH Work

Mike Boyd

- CRPPH Chair
- US Environmental Protection Agency

## RP Culture: Integration with Safety Culture

Safety is a socially and culturally relative concept

Safety Culture: People doing the right thing when no one is watching

Regulator RP Culture:

- Incorporate social and ethical values in the development and enforcement of regulations addressing optimisation
- Transparency of information, and active communications

## Areas of CRPPH Focus

- Worker Protection at NPPs in Operation and in Decommissioning
- Emergency Management
- Off-site Recovery following a Large-Scale Nuclear Power Plant Accident

## Key RP Culture Elements

Worker Protection:	Optimisation of protection
Emergency Management:	Precaution
Recovery Management:	Stakeholder Involvement
