

Closing Session

- What is a notable achievement or progress in each research area?

- What is a notable achievement or progress in each research area?
- What is to be done for further development?

- What is a notable achievement or progress in each research area?
- What is to be done for further development?
- What is a technical obstacle, if any, for further development?

- What is a notable achievement or progress in each research area?
- What is to be done for further development?
- What is a technical obstacle, if any, for further development?
- What is recommended for the development of P&T technology?

- What is a notable achievement or progress in each research area?
- What is to be done for further development?
- What is a technical obstacle, if any, for further development?
- What is recommended for the development of P&T technology?

- Transition scenarios
- Impact of P&T
- Partitioning
- Fuels and targets
- Materials
- Physics experiments and nuclear data
- Transmutation systems
