

Introduction to 9 IEM P & T programme

J GUIDEZ

Director of Phenix reactor

Chair of Scientific Advisory Committee

Some numbers

- 170 attendees
- 84 contributed papers
- 35 invited papers

An option « invited papers » without parallel session

- The initial program was made to have a global view of all national and international programs and was established on a basis of invited papers
- After we received about hundred paper contributions, and many are shown as posters
- A special evening is organised Wednesday for this poster exhibition, with a buffet. We hope a lot of fruitfull discussions during this time (from 18h to 22h)

Sessions organisation

- Review of national programs and international activities: Tuesday
- Conference dinner (AREVA sponsor): Tuesday
- Progress in fuel and targets, progress in partitioning : Wednesday
- Poster session (all topics) : Wednesday 18h to 22h
- Dedicated transmutation systems, transmutation in GEN IV reactors, waste management and geological disposal (Thursday)
- Technical visits: Friday

Some practical points

- Speakers:
 - bring your presentation file at the latest during the break before your session
 - Allow at least 5 minutes for discussion
- Posters can be shown all week
- ALL authors: full papers for Proceedings need to be with NEA before 9 October for SAC review (send to Federico Mompean)

Thanks to all the members of
Scientific Advisory Committee

Fruitful and interesting meeting for
all attendees !
